PROFESSIONAL HSS FULLY GROUND TWIST DRILLS

LK 'Professional' high speed steel (HSS) drill bits are manufactured from high quality M2 grade tool steel, to meet the requirements of the DIN 338 standard.

Each bit has a fully ground flute and cutting tip, featuring a 135 degree point angle and split point providing easy non-slip starting and precision drilling. All these great features help you to achieve superior performance in most materials.

Faithful 'Professional' high speed steel (HSS) drill bits are available in individual packs, loose format for the bulk user and cased sets (see page 61).

Suitable for use in: Alloy Steels, Carbon Steels, Cast Iron, Hardened Alloy Steels, Stainless Steels.

DRILL BIT SETS

These sets contain commonly used sizes from either the metric or imperial ranges. Although designed for cutting metal, HSS drills are also suitable for drilling holes in timber, chipboard and plywood.
